If the dispute is brought to Labor Management, the twenty eight (28) calendar day time restriction to move to Step 1 will be waived if submitted within twenty eight (28) calendar days from the knowledge of the occurrence of such Grievance.

The Union also retains the right to file a grievance on its own.

**Step 1: Grievance Review**

A written notice of a grievance, to include the provided form, facts of alleged violation, section of CBA or practice violated, and remedy sought by the Union, shall be presented to the Fire Chief within twenty eight (28) calendar days from the Union’s knowledge of the occurrence of such grievance.

The Union and Employer shall meet within twenty eight (28) calendar days of the Fire Chief’s notification, and attempt to resolve the grievance prior to moving to Step 3. If the grievance is not pursued to Step 3 within twenty eight (28) calendar days from the conclusion of the meeting(s), it shall be deemed resolved.

**Step 3: Mediation**

The Union may initiate arbitration if the mediation process fails by filing with the Fire Chief, a written request for arbitration pursuant to the rules below. The request for arbitration shall contain a brief statement of the nature of the dispute and the names of all parties including those who will represent the Union.

Appointment of an Arbitrator - A single arbitrator shall be chosen. A list of three impartial arbitrators shall be presented by each side from individuals outside the organization. The process to select the Arbitrator shall be by mutual agreement by both parties.

If the Union and Employer are unable to select an arbitrator by this method, the Union shall petition the AAA for a list of impartial arbitrators. Within fourteen (14) calendar days following receipt of the list from AAA, the parties shall meet to select an arbitrator. If the Union and the Employer cannot mutually agree upon an arbitrator, then the Union and the Employer shall take turns in striking names from the list until one remains. A coin toss shall determine who shall strike first. Alternately, the Union and Employer may mutually agree to request PERC appoint an arbitrator from its Dispute Resolution Panel.

The Arbitrator and parties shall adhere to the AAA Labor Arbitration Rules or PERC rules as applicable.

38.4. Employees who have leave scheduled during mobilization may have those hours re-credited to their bank of available hours.
39. SUBSTANCE ABUSE POLICY

39.1. Overview

The Employer and the Union recognize substance abuse by employees is a threat to the public welfare and the safety of department personnel. It is the goal of this policy to eliminate, prevent or correct substance abuse through education and rehabilitation of the affected personnel. The use of alcohol or unauthorized drugs shall not be permitted at the Employer's work sites and/or while an employee is on duty, nor shall an employee report for duty or be allowed to remain on duty under the influence of alcohol, or drug(s) that impairs their ability to safely perform their duties.

While the Employer wishes to assist employees with alcohol or substance abuse problems, safety is the Employer's first priority. Therefore, employees must not report for work or continue working if they are under the influence of, or impaired by, the prohibited substances listed in Sections 39.5 and 39.6 of this article. Employees participating in treatment programs are expected to observe all job performance standards and work rules.

Nothing in this Substance Abuse Article shall be intended to alter the Employers right to discipline or discharge employees for violations of Employer policy, either related or unrelated to drug and/or alcohol use.

39.2. Informing Employees About Drug and Alcohol Testing

All employees shall be fully informed of this substance abuse testing article. Employees will be provided with information concerning the impact of the use of alcohol and drugs on job performance. In addition, the Employer shall inform the employees on how the tests are conducted, what the tests can determine and the consequence of testing positive for drug or alcohol use. No employee shall be tested before this information is provided to him/her. Employees who voluntarily come forward and ask for assistance to deal with a drug or alcohol problem prior to any incident involving serious injury or significant property damage shall not be disciplined by the Employer for substance abuse.

The Employer encourages employees to seek treatment for drug and alcohol abuse voluntarily. To encourage employees to do so, the Employer makes available the Employee Assistance Program (EAP). Any employee who notifies the Employer of alcohol or substance abuse problems will be given the assistance offered to employees with any other illness. As with other illnesses, the Employer may grant sick leave, vacation leave or leaves of absence without pay for treatment and rehabilitation of drug and alcohol abuse.

Any decision to voluntarily seek help through the EAP, or privately, will not interfere with an employee's continued employment or eligibility for promotional opportunities. Information regarding an employee's participation in the (EAP) will be maintained in confidence.
39.3. Employee Testing

39.3.1. Reasonable Suspicion Testing

Unless otherwise required by federal law, employees shall not be subject to random urine testing or blood testing or other similar or related tests for the purpose of discovering possible drug or alcohol abuse, except under the terms of a second chance agreement. If the Employer has reasonable suspicion to believe an employee's work performance is impaired due to drug or alcohol use, the Employer may require the employee to undergo a drug and/or alcohol test consistent with the conditions set forth in this article.

Reasonable suspicion for the purposes of this article is defined as follows: the Employer's determination that reasonable suspicion exists shall be based on specific, articulated observations concerning the appearance, behavior, speech or body odors of an employee and shall include, as a minimum, a written report documenting objective, measurable changes in an employee's work performance due to unauthorized drug or alcohol use by two (2) observers who have opportunity to observe these changes.

39.3.2. Post Incident/Accident Testing

39.3.2.1. Employees may be required to undergo urine, breath, saliva, and blood testing if they are a driver involved in a motor vehicle accident (MVA) with an Agency vehicle that results in a fatality or bodily injuries requiring transport for medical treatment.

39.3.2.2. Following an MVA, the driver shall be tested as soon as possible, but not to exceed eight (8) hours from the time of the accident.

39.3.2.3. Nothing in this section shall be construed to require the delay of necessary medical attention for an injured employee following an MVA.

39.4. Sample Collection

The collection and testing of samples shall be performed only by a laboratory and interpreted by a physician or health care professional qualified and authorized to administer and determine the meaning of any test results. The laboratory performing the test shall be one that is certified by the National Institute of Drug Abuse (NIDA). The local laboratory chosen must be agreed to by the Union and the Employer. The results of employee tests shall be made available to the Medical Review Officer (MRO).
Collection of blood, saliva, or urine samples shall be conducted in a manner which provides for the highest, reasonable degree of security for the sample and freedom from adulteration. Blood or urine samples shall be submitted as per NIDA standards including the recognized chain of custody procedures. Employees have the right to request Union and/or legal representation to be present during the submission of the sample. However, unless the employee’s Weingarten rights (NLRB vs. Weingarten, Inc. 420 U.S. 251, 88 LRRM 2689) should require otherwise, the submission of the sample may be required with or without a Union and/or legal representative being present. Employees shall not be witnessed while submitting a urine specimen. Prior to submitting to a urine, saliva, or blood sample, the employee will be required to sign consent and release form as attached to this article.

A split sample shall be reserved in all cases for an independent analysis in the event of a positive test result. All samples must be stored in a scientifically acceptable preserved manner as established by NIDA approved facility. All positive confirmed samples and related paperwork must be retained by the laboratory for at least six (6) months or for the duration of any grievance, disciplinary action, or legal proceedings, whichever is longer. At the conclusion of this period, the laboratory's paperwork and specimen shall be destroyed. Tests shall be conducted in a manner to ensure an employee's legal drug use and diet does not affect the test result.

39.5. Drug Testing

The laboratory shall test for only the substances and within the limits as follows for the initial and confirmatory test as provided within NIDA standards. The initial test shall use an immunoassay test procedure, which meets the requirements of the Food and Drug Administration (FDA) for commercial distribution. The following initial cutoff levels shall be used when screening specimens to determine whether they are negative for these five drugs or classes of drugs:

INITIAL TESTING:

(1) If immunoassay is specific for free morphine, the initial test level is 25 ng/ml.

If initial test results are negative, testing shall be discontinued, all samples destroyed and records of the testing expunged from the employee’s files. Only
specimens identified as positive on the initial test shall be confirmed using gas chromatography/mass spectrometry (GC/MS) techniques at the following listed cutoff values.

If confirmatory testing results are negative, all samples shall be destroyed and records of the testing expunged from the employee's files.

Drug test results gathered under this article shall not be voluntarily turned over to any party in a criminal investigation or prosecution, except by subpoena.

39.6. Alcohol Testing

A breathalyzer or similar equipment shall be used to screen for alcohol use, and if positive, shall be confirmed by a blood alcohol test performed by a qualified laboratory. This screening test shall be performed by an individual properly qualified to perform the tests utilizing appropriate equipment. An initial positive alcohol level shall be 0.04 grams per 210 L. of breath. If initial testing results are negative, testing shall be discontinued, all samples destroyed and records of the testing expunged from the employee's files. Only specimens identified as positive on the initial test shall be confirmed using a blood alcohol level. Sample handling procedures, as detailed in Section 39.4, shall apply. A positive blood alcohol level shall be 0.04 grams per 100 ml of blood. If confirmatory testing results are negative, all samples shall be destroyed and records of the testing expunged from the employee's files.

39.7. Marijuana Testing

In the State of Washington, marijuana is legal under state law, both as a prescription medication and as a drug used for recreational purposes.
Employees shall not be under the psychoactive effects of marijuana causing motor impairment while on duty. Marijuana metabolites can stay in a person’s blood for weeks after the psychoactive effects of the drug have completely subsided. In addition, certain topical medications containing marijuana, do not cause any psychoactive effects, but can still result in a positive test for marijuana.

A saliva test shall be used to screen for the psychoactive effects of marijuana use, and if positive, shall be confirmed by a blood test performed by a qualified laboratory. This screening test shall be performed by an individual properly qualified to perform the tests utilizing appropriate equipment. An initial positive level shall be 5 nano grams per milliliter of Delta-9-tetrahydrocannabinol. If initial testing results are negative, testing shall be discontinued, all samples destroyed and records of the testing expunged from the employee's files. Only specimens identified as positive on the initial test shall be confirmed using a blood test. Sample handling procedures, as detailed in Section 39.4, shall apply. A confirmatory test shall also test for the psychoactive effects of marijuana usage. A positive blood level shall be 5 nano grams per milliliter of Delta-9-tetrahydrocannabinol. If confirmatory testing results are negative, all samples shall be destroyed and records of the testing expunged from the employee's files.

If the employee tests positive for marijuana, the MRO will make a determination, based on current scientific data and other evidence, if the marijuana more than likely caused the behavior or impairment that resulted in the administration of the drug or alcohol test.

If the MRO determines marijuana was not the likely cause of the behavior or impairment that resulted in the administration of the drug or alcohol test, the MRO will not release any results of the marijuana portion of the drug test to the Employer.

39.8. Medical Review Officer

The MRO shall be chosen and agreed upon between the Union and the Employer and must be a licensed physician with a knowledge of substance abuse disorders. The MRO shall be familiar with the characteristics of tests (sensitivity, specificity and predictive value), the laboratories conducting the tests and the medical conditions and work exposures of the employees.

The role of the MRO will be to review and interpret the positive test results. He/she must examine alternative medical explanations for any positive test results. This action shall include conducting a medical review with the affected employee, review of the employee's medical history and review of any other relevant biomedical factors. The MRO must review all relevant medical records made available by the tested employee when a confirmed positive test result could have resulted from legally prescribed medication.

39.9. Laboratory Results
The laboratory will advise only the employee and the MRO of any positive results. The results of any positive drug or alcohol test can only be released to the Employer by the MRO once he/she has finished review and analysis of the laboratory’s test. Unless otherwise required by law, the Employer will keep the results confidential and shall not release them to the general public.

39.10. Testing Program Costs

The Employer shall pay for all costs involving drug and alcohol testing as well as the expenses associated with the MRO. The Employer shall also reimburse each employee for their time and expenses including travel incurred involving the testing procedure only.

39.11. Rehabilitation Program

Any employee who tests positive for a substance listed in Sections 39.5 and 39.6 of this article shall be medically evaluated, counseled and treated for rehabilitation as recommended by the Substance Abuse Professional (SAP). In the event the employee disagrees with the treatment recommended by the SAP, the employee may choose to obtain a second opinion from a qualified physician of his/her choice, at their own expense. Employees who complete a rehabilitation program may be re-tested randomly, without notice, for one (1) year following completion of a rehabilitation program.

An employee may voluntarily enter rehabilitation without a requirement or prior testing. Employees who enter the program on their own prior to any incident involving serious injury or significant property damage shall not be subject by the Employer to random re-testing. Employees will be allowed to use their accrued and earned leave for the necessary time off involved in the rehabilitation program.

If an employee tests positive during the one (1) year period following completion of rehabilitation, the employee will be re-evaluated by an SAP to determine if the employee requires additional counseling and/or treatment. The employee will be solely responsible for any costs, not covered by medical benefits/insurance, which arise from this additional counseling or treatment.

Nothing in this Substance Abuse Article shall be intended to alter the Employer’s right to discipline or discharge employees for violations of Employer policy, either related or unrelated to drug and/or alcohol use.

39.12. Duty Assignment After Treatment

If the duty assignment for an employee is modified or changed as a result of a rehabilitation program, then after an employee successfully completes his/her rehabilitation program, the employee shall be returned to the regular duty assignment held prior to the rehabilitation program. Once treatment (including any second-chance agreement) and follow-up care is completed, and one (1)
year has passed with no further violations of this article, the employee’s records related to drug and alcohol testing shall not be used to deny promotion opportunity or take disciplinary actions against such employee.

All records related to drug and alcohol testing (including rehabilitation) shall be maintained in medical file in a secure location with controlled access. These records shall be kept separate from records pertaining to Section 39.11 Duty Assignment after treatment for the protection of the individual employee and the Employer.

39.13. Right of Appeal

The employee has the right to challenge the result of the drug or alcohol test and any discipline imposed in the same manner that he/she may grieve any other Employer action.

39.14. Savings Clause

The Employer and Union have agreed upon this Article in good faith and with the understanding its provisions are consistent with applicable law. In the event any of the provisions of this Article are determined to be illegal by a court of competent jurisdiction or inconsistent with applicable law, the remainder of this Article shall remain in effect and the parties shall meet to negotiate a replacement provision. The Union shall be held harmless for the violation of any worker rights arising from the administration of the drug and alcohol testing program as set forth herein or the Employer’s Substance Abuse Policy, which shall apply uniformly to bargaining unit members; provided, if there are any conflicts between the provisions of this Article and the Employer’s Policy, this Article shall govern.
Consent for Sampling and Release of Information Form

CONSENT/RELEASE

Subject to my rights under Article 39 of the Collective Bargaining Agreement between Local 2878 of the IAFF and the Employer, I consent to the collection of a urine/blood/saliva sample by ________________________________ and its analysis by ________________________________ for those drugs specified in the Collective Bargaining Agreement.

The laboratory administering the tests will be allowed to release the results to the Employer only after the laboratory’s results have been reviewed and interpreted by the Medical Review Officer (MRO). The information provided to the Employer shall be only whether the tests were confirmed positive or were negative and not any other results of the test without my written consent. The laboratory is not authorized to release the results of this test to any other person without my written consent.

I understand I have the right to my complete test results and the laboratory will preserve the sample for at least six (6) months. I have the right to have this sample split and a portion tested at a second laboratory of my choice at my expense in the event the test results are confirmed positive.

I understand the Employer is requiring me to submit to this test as a condition of my employment and alteration of the sample or failure to reasonably cooperate with the collection of a urine/blood/saliva sample will result in disciplinary action by the Employer.

I understand a confirmed positive test may result in a requirement that I enter into a second chance agreement that includes a requirement I undergo rehabilitation.

By signing this consent form, I am not waiving any of my rights under any federal, state or local law, statute, constitution, ordinance, administrative rule or regulation or common law provision. I understand I have the right to challenge any confirmed positive test result and any Employer action based thereon by filing a grievance under the Collective Bargaining Agreement.
